## WORK EXPERIENCE

### Web Developer

Black Cat Advertising - Scarborough, Ontario, October 2017 – March 2019

- Create mobile friendly websites and applications using HTML, CSS, JavaScript and PHP
- Write well-designed, readable, testable, efficient code by using best web development practices such as using MVC patterns
- Develop and implement custom CMS components across multiple sites
- Build custom Rest APIs as well as tools to manage and consume APIs
- Ensure content is AODA compliant and mobile friendly
- Apply knowledge of relational database systems and web application development (PhpMyAdmin, SQL)
- Collaborate using Git, Jira, and Harvest in an agile environment

### Assistant Language Teacher

Akita City Board of Education - Akita City, Japan, August 2013 – August 2016

- Plan and execute lesson plans both solo and in teams
- Designing and creating original digital and printed lesson materials
- Organizing and conducting international guest visits to my schools
- Presenting original ideas to international audiences

### Front Desk Receptionist

Centers for Pain Management - Oakville, Ontario, April 2012 - July 2013

- Answer phones, speak with patients, handle charts
- Use MedSched to book appointments, enter test results, patient information, change doctor's schedules
- Cover shifts in different clinics as necessary
- Create and maintaining spreadsheets to track charts
- Change the filing system of charts in CPM Mississauga to reflect the more efficient model of other clinics
